

AARSH PANDEY

ACCESS TO ELECTRICITY AND HEALTHCARE | PRODUCT DEVELOPMENT

Aarsh comes to the Institute for Transformative Technologies with experience in building digital products and businesses. Before ITT, he ran a venture aimed at solving Delhi's parking and street congestion woes via a mobile application. It involved working with the Delhi government and parking operators across the city.

Before dabbling with his own start-up, Aarsh worked with operations, product and business teams at Housing.com. During his stint there, he led a team of analysts to launch the first home loans platform across all property portals in India, set up operations to enable property listings on web products, and launched a new revenue strategy for business partners.

Aarsh holds a Bachelors Degree in Ocean Engineering from the Indian Institute of Technology, Kharagpur. At IIT, he held leadership positions at the Entrepreneurship Cell, and was an avid debater in literary clubs. In his spare time, he enjoys water sports, dance and trekking.
